

MEETTOWER

# LITE PAPER

**MEETING PEOPLE IN A  
FUN ENVIRONMENT**

MEETOWER

It is a fact that over centuries, individuals needed someone in their lives in order to associate and meet the inner needs of personal and group life. this means that this choice is both for psychological and material needs.

MEETTOWER

# Abstract

---

The Meet tower dating project is based on the smart block chain, which has started since the beginning of 2021 with Twin Motion and Unreal Engine software, it has decided to hold an ICO in order to improve and accelerate its activities.

MEETTOWER

# Introduction

---

The Meet tower dating project is based on the smart block chain, which has started since the beginning of 2021 with Twin Motion and Unreal Engine software, it has decided to hold an ICO in order to improve and accelerate its activities.

MEETOWER

---

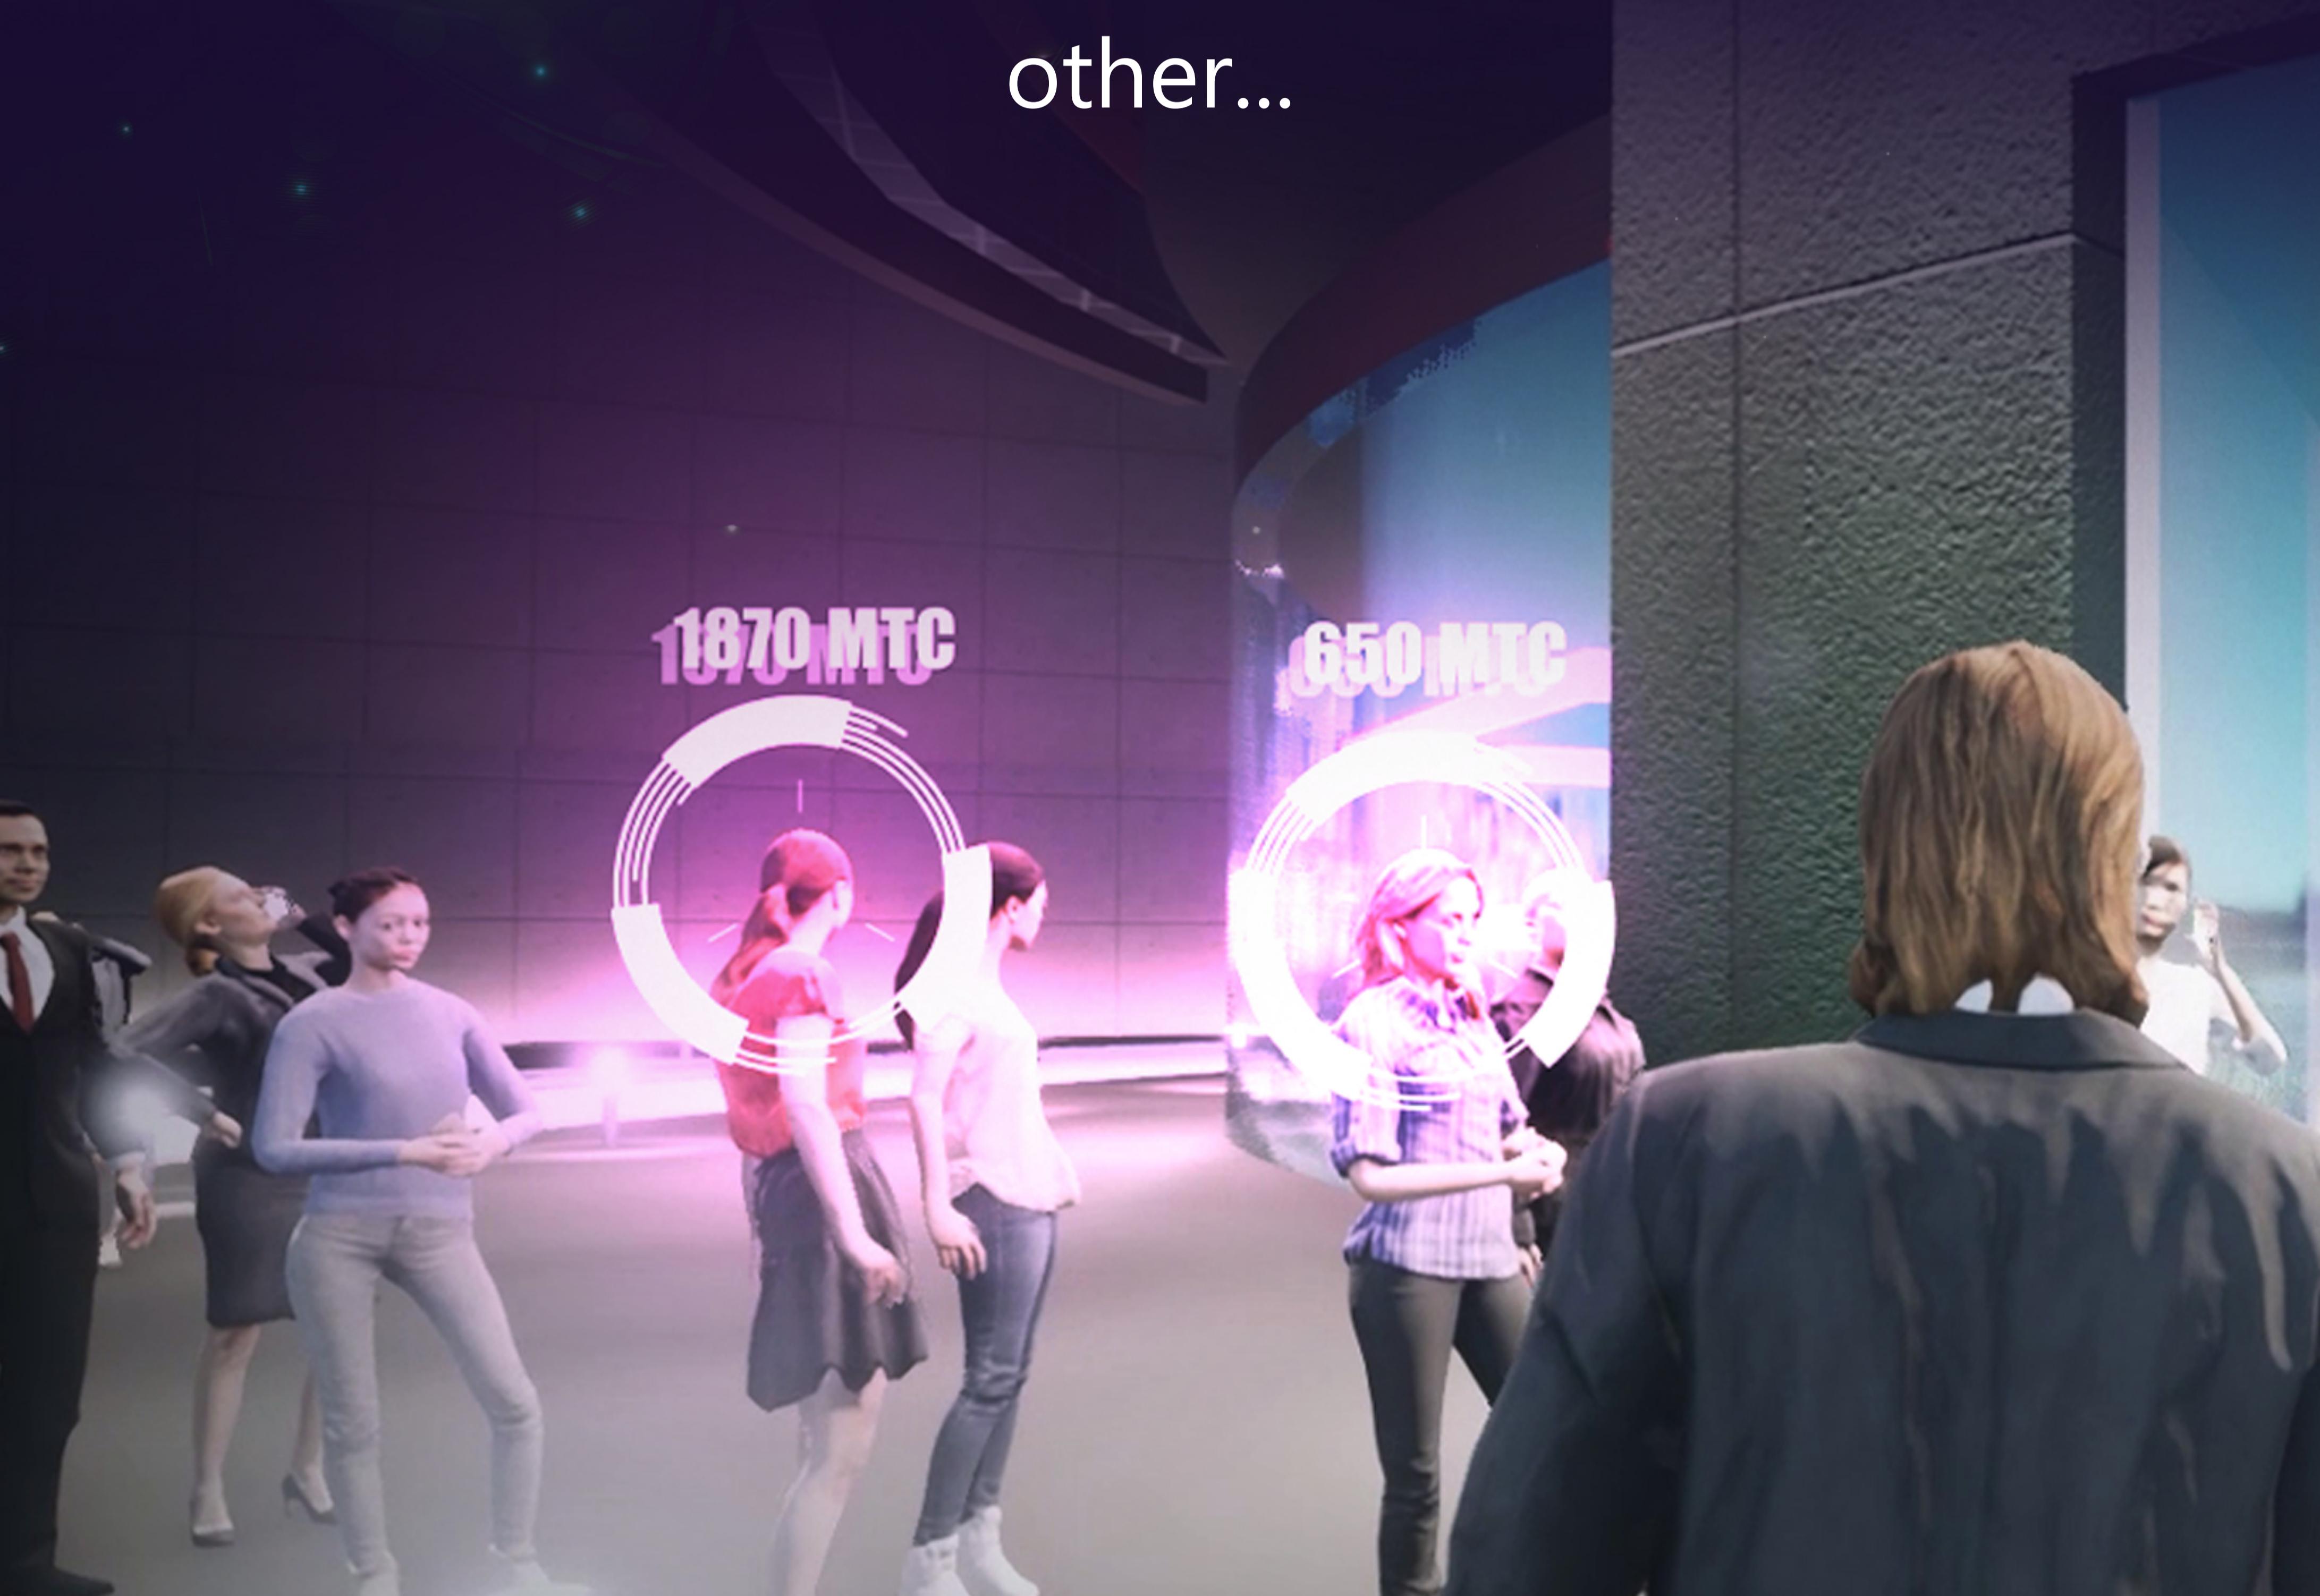

The starting point of this game is one of the main streets of a city, after connecting your wallet to the game environment and selecting your unique avatar, you take turns entering the Meet tower building and you can enjoy its sections with other players...

MEETTOWER

One of the features of this project is determining the minimum tokens that people need to communicate with you, therefore this makes people be in the "same financial classes" to communicate with each other...

MEETTOWER

---

and also individuals could have the opportunity to become VIP players based on the number of the tokens in their wallet, and that gives many facilities to the VIP players in Meet Tower...

MEETOWER

---

The main building of the Meet Tower consists of five different storeys, each floor has unique features...

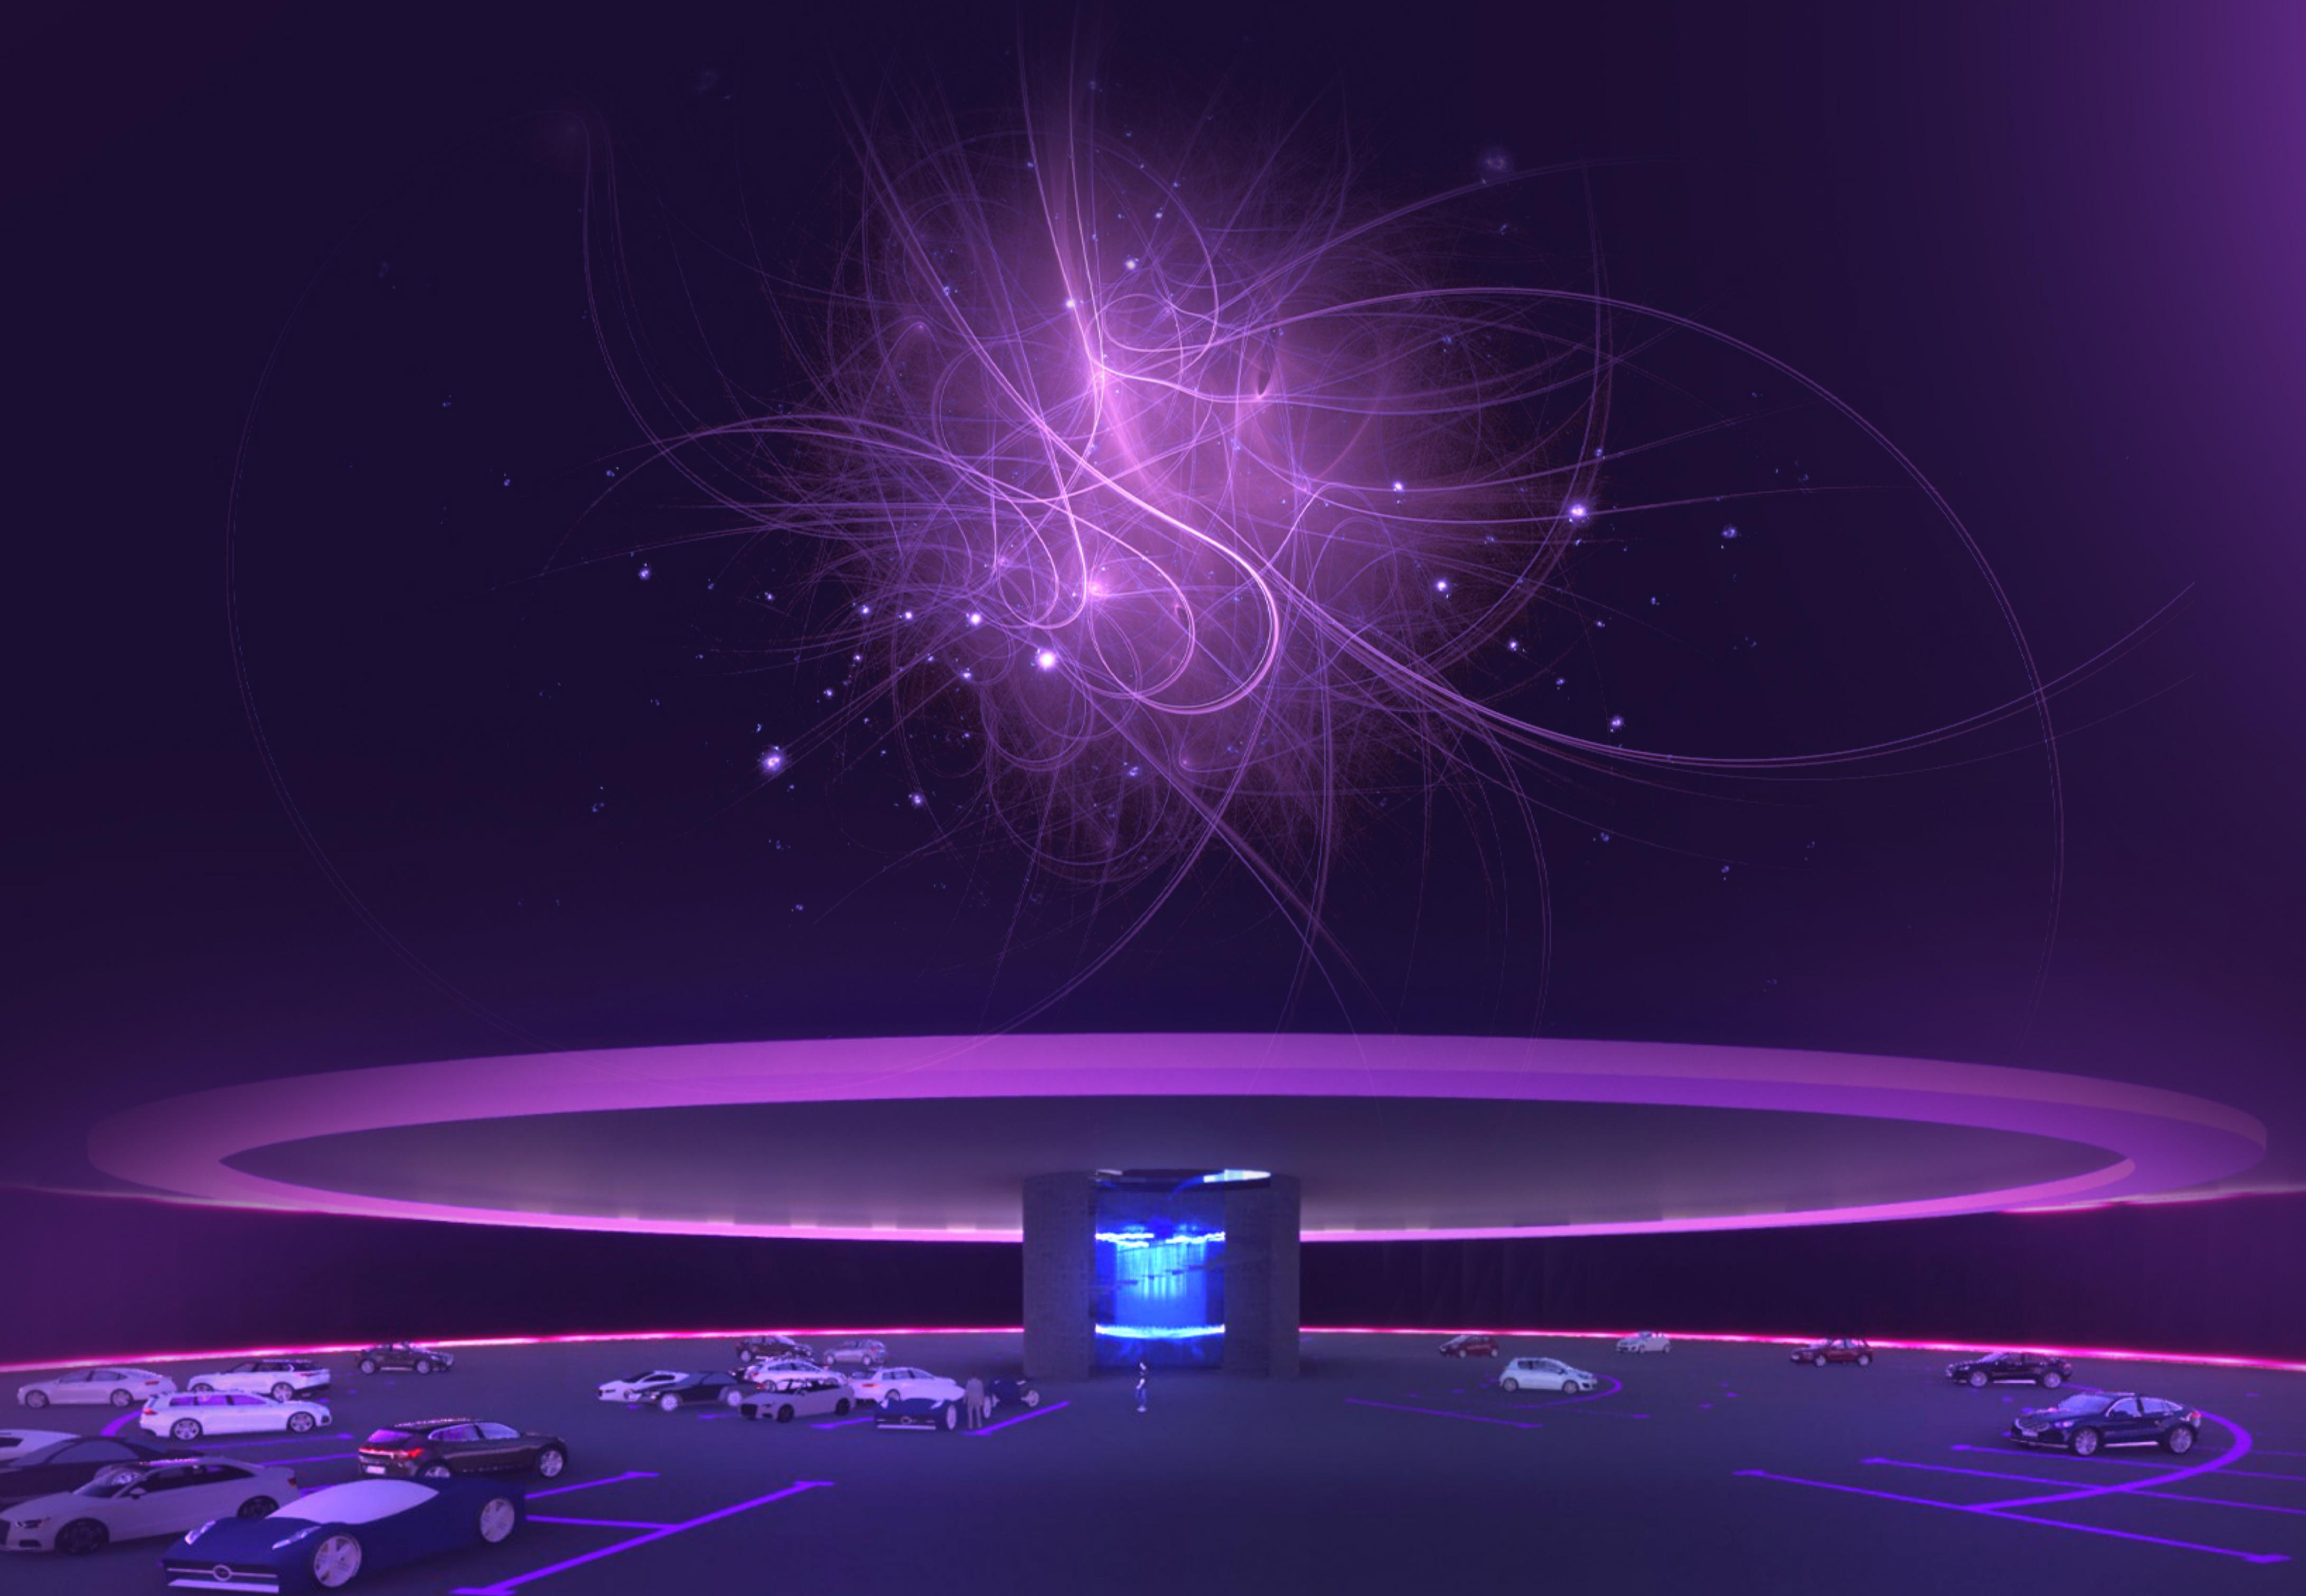

MEETTOWER

---

The parking floor is for parking and upgrading the vehicles bought through NFT...

MEETTOWER

---

The ground floor, facing the main street, is a place for selling NFTs and marketing, whitch brands and companies can show their products...

MEETOWER

---

The first floor has a night club which is designed with facilities such as VIP lounge and 2 separate DJ stages, and also has the ability to hold events and concerts with NFT tickets...

---

The second floor is a place for casino game lovers, which all the devices and the games have been decentralized. Some may ask how a game like roulette could be decentralized!? we must say that not only some sections of the building can be purchased by the players but also they can purchase game equipments of the casino and make money...

MEETOWER

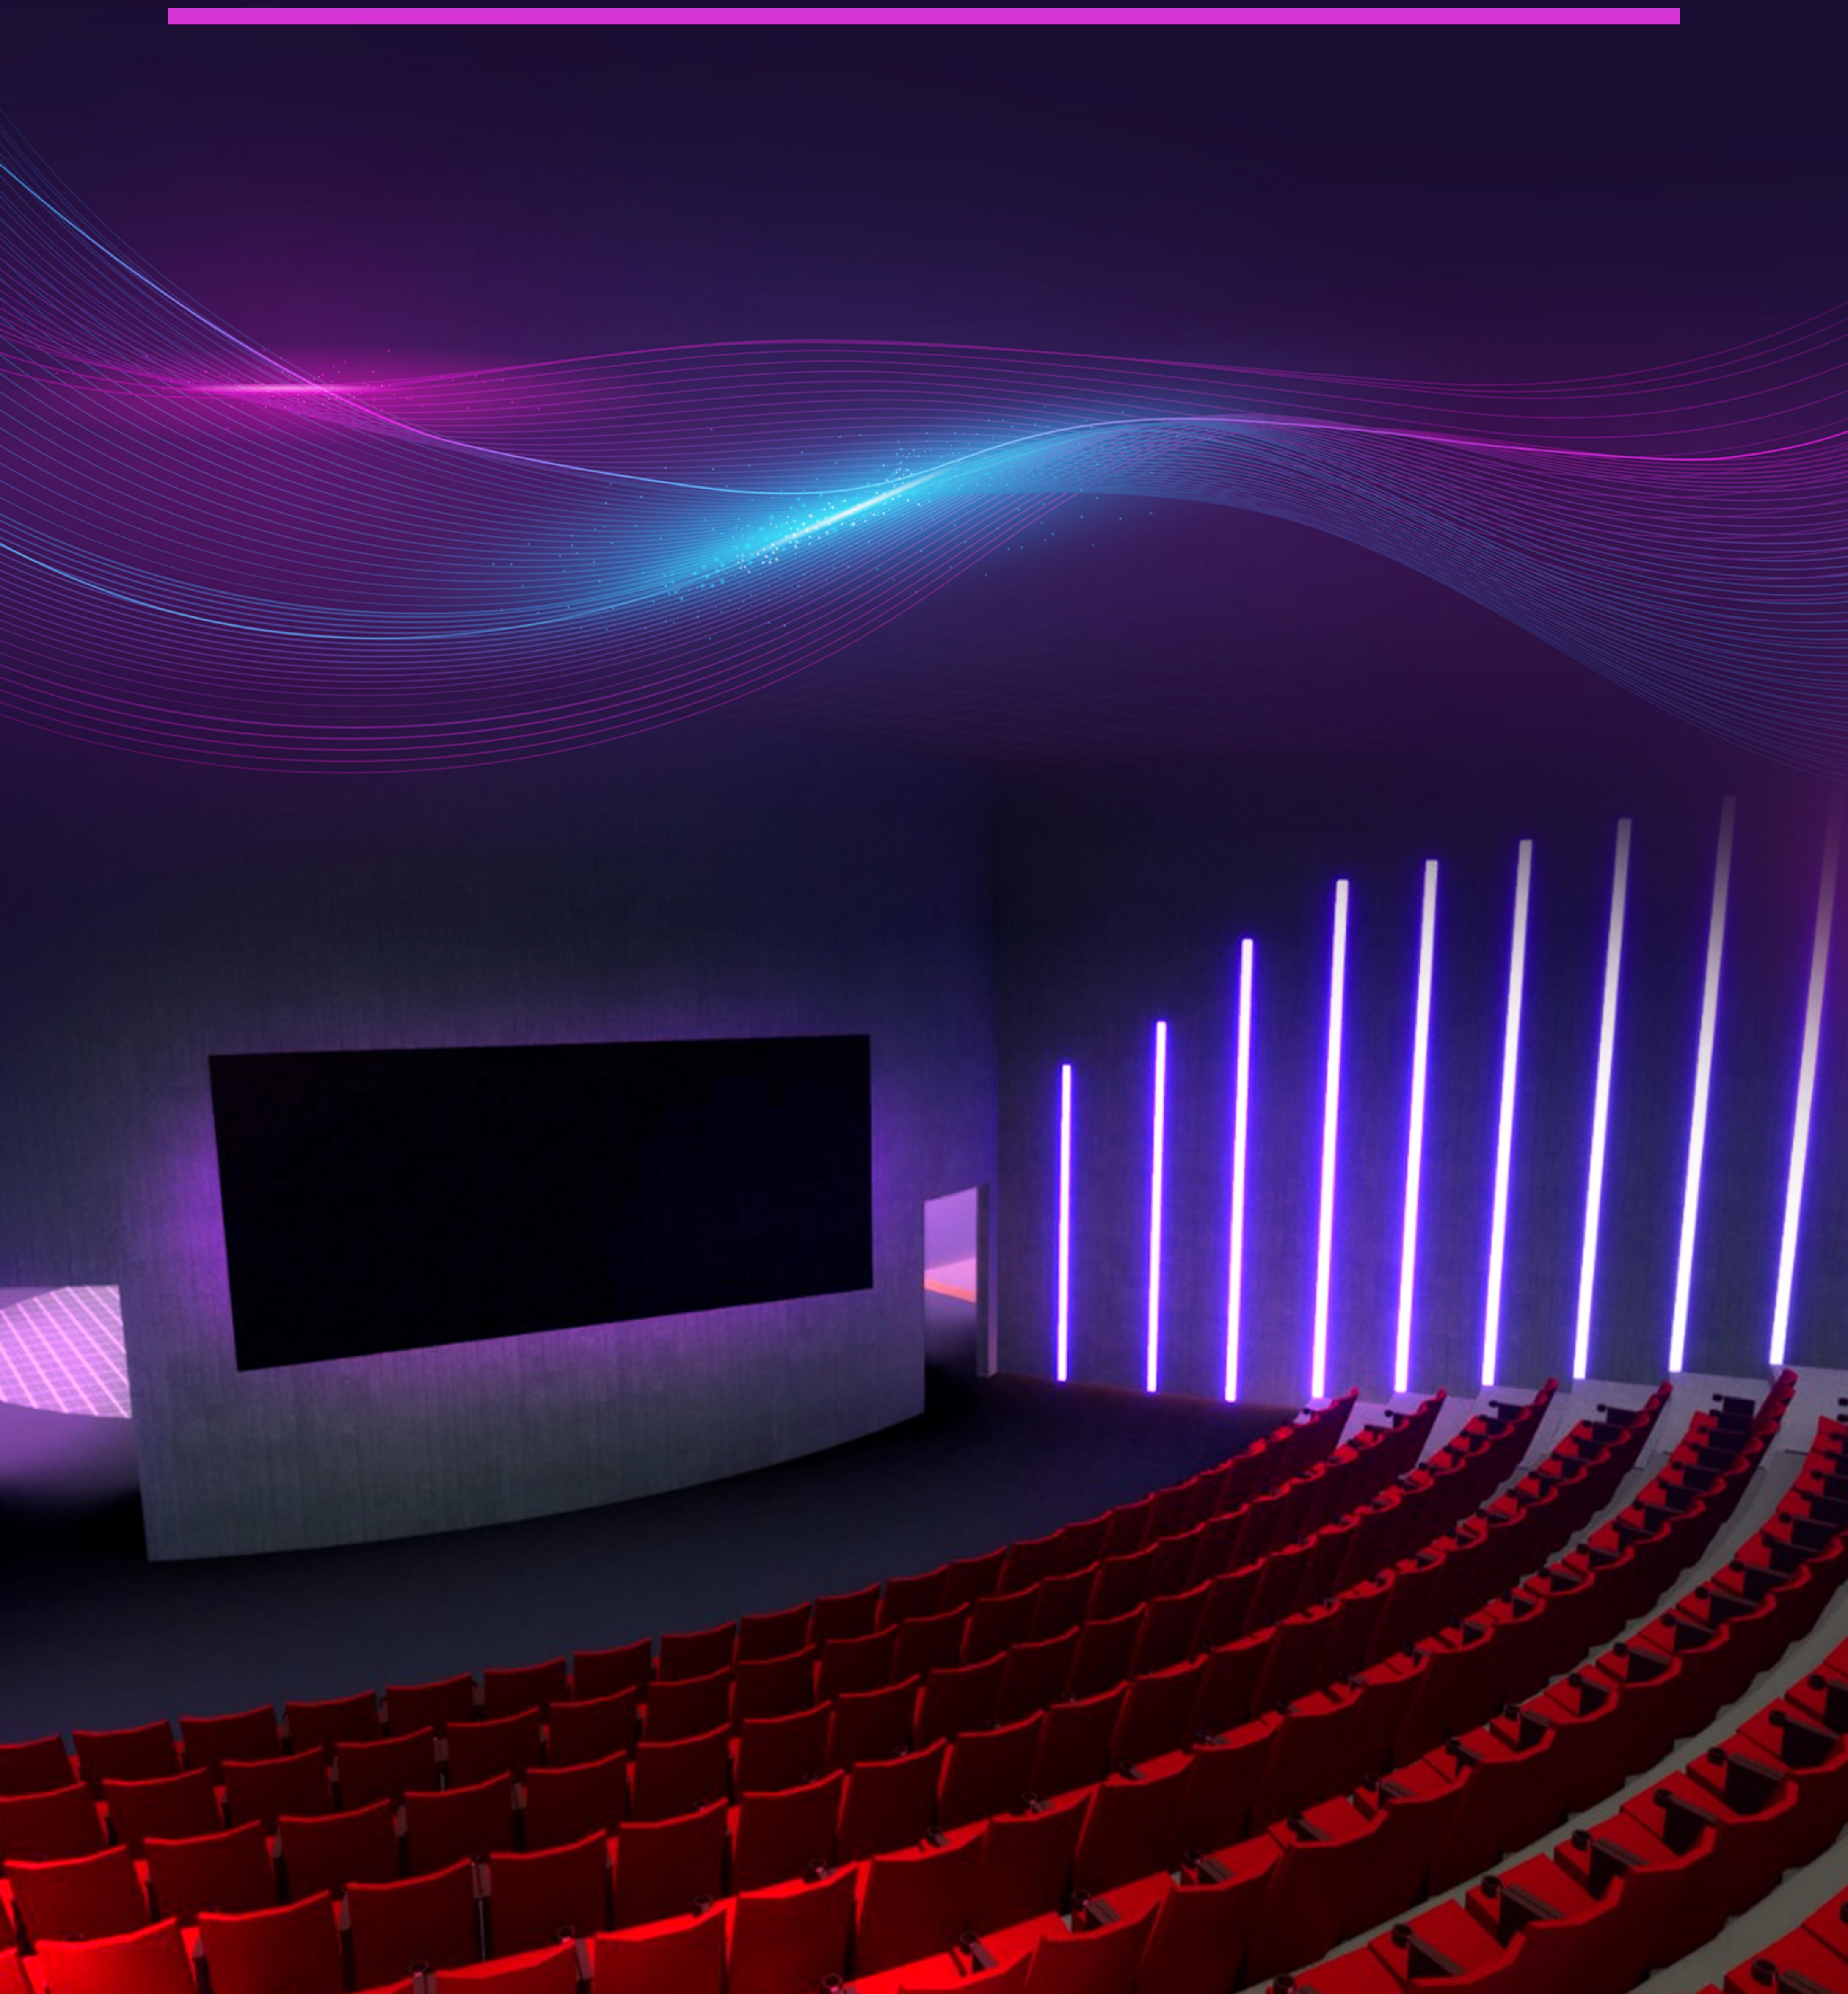

---

The third floor has three conference halls and cinemas with the capacity of 300 people. seminars and screen online NFT movies in virtual reality are held here...
